A NOTE ABOUT THE SUPPLIES

Replace anything you can above with supplies that you already have.

Also Daniel Smith Water Colours are really beautiful (like the amethyst colour actually has amethyst in it!!), but they are also really expensive, so please use whatever water colours you have, or buy an affordable set to see if you like water colours first.

Winsor and Newton do nice small sets, QoR by Golden do nice and more affordable water colours.

The one thing I would not go cheaper on is the paper, if you use bad quality water colour paper, you will have trouble getting your painting to turn out the way you want it to!
